What's New in WordPress?

…or what's new to me.

TELEX
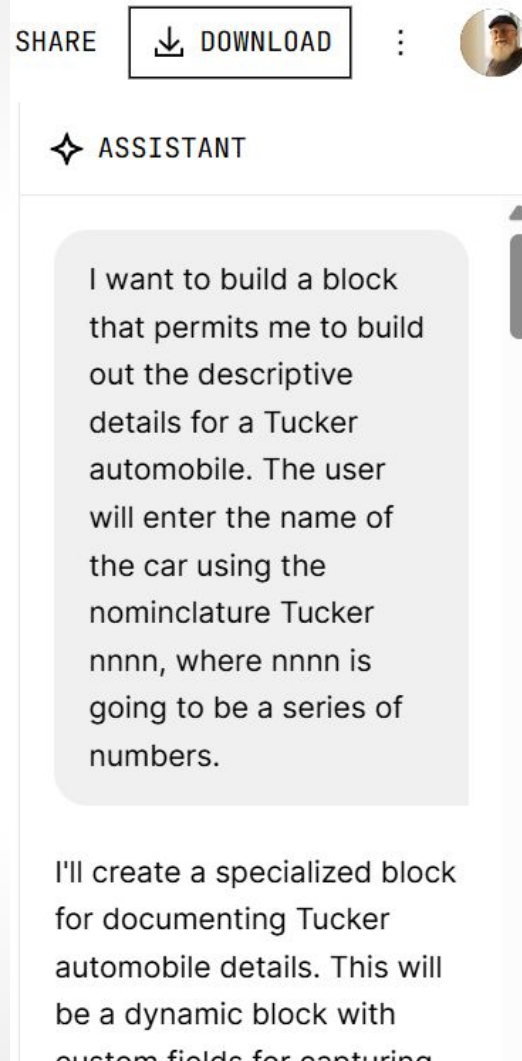

OPEN PROJECT ⌄

Tell me about your block

Describe your idea. Telex will build a WordPress block for you.

I need a reservatio

BUILD

Prompt AI

I want to build a block that permits me to build out the descriptive details for a Tucker automobile. The user will enter the name of the car using the nominclature Tucker nnnn, where nnnn is going to be a series of numbers.

✦ ASSISTANT

I want to build a block that permits me to build out the descriptive details for a Tucker automobile. The user will enter the name of the car using the nominclature Tucker nnnn, where nnnn is going to be a series of numbers.

I'll create a specialized block for documenting Tucker automobile details. This will be a dynamic block with custom fields for capturing

Refine AI

There will be a number of fields that the user can enter data in to describe the care. The list of fields include: Car Number, Original Paint Code, Original Paint Color, Current Paint Code, Current Paint Color, Original Interior Color, Current Interior Color, Body Number, Original Engine Number, Current Engine Number, Transmission Type, Ownership, Location, On Display. All fields are text field entry except

✦ **ASSISTANT**

I'll expand the block to include all the detailed fields you've specified for documenting Tucker automobiles. This will give you comprehensive data entry capabilities for tracking paint codes, interior colors, engine numbers, and display status.

This is good. The On Display toggle must display Yes or No on the front end indicating that the car is on display or not on display.

Plugin code structure

Telex is an active experiment, which means exciting progress and some growing pains

What this means for you:

- **Things move fast:** We're constantly improving, so features may change and sessions might reset. Download your blocks when you're happy with them.

- **Experimental nature:** No promises on uptime or permanence, please always backup important work and test blocks before using them live.

- **Fair usage:** Currently unlimited, but we might pause or throttle long sessions during busy periods.

- **Double-check everything:** AI is powerful but not perfect. Test before using in production.

- **Keep it safe:** Don't share passwords, API keys, or sensitive information in your prompts.

Fair Warning.

Thanks

Matt Ryan
